Fastronix Deutsch Style Connector Instructions

Plug Connector

Plug Contact

Plug Wedge

1. Crimp or solder wire on to contact.

2. Grasp crimped contact wire approx. one inch behind the contact.

3. Push contact **(plug or recept)** straight into correct **(plug or recept)** connector back (orange seal) until a 'click' is felt.

4. A slight tug will confirm placement.

5. Repeat steps 1-4 for all contact pins.

6. Insert correct wedge **(plug or recept)** into connector front.

7. A 'click' will be felt when the wedge is fully installed.
